**Apparatus and Method for Controlling Battery Temperature of a
Power Supply for an Electrical Device**

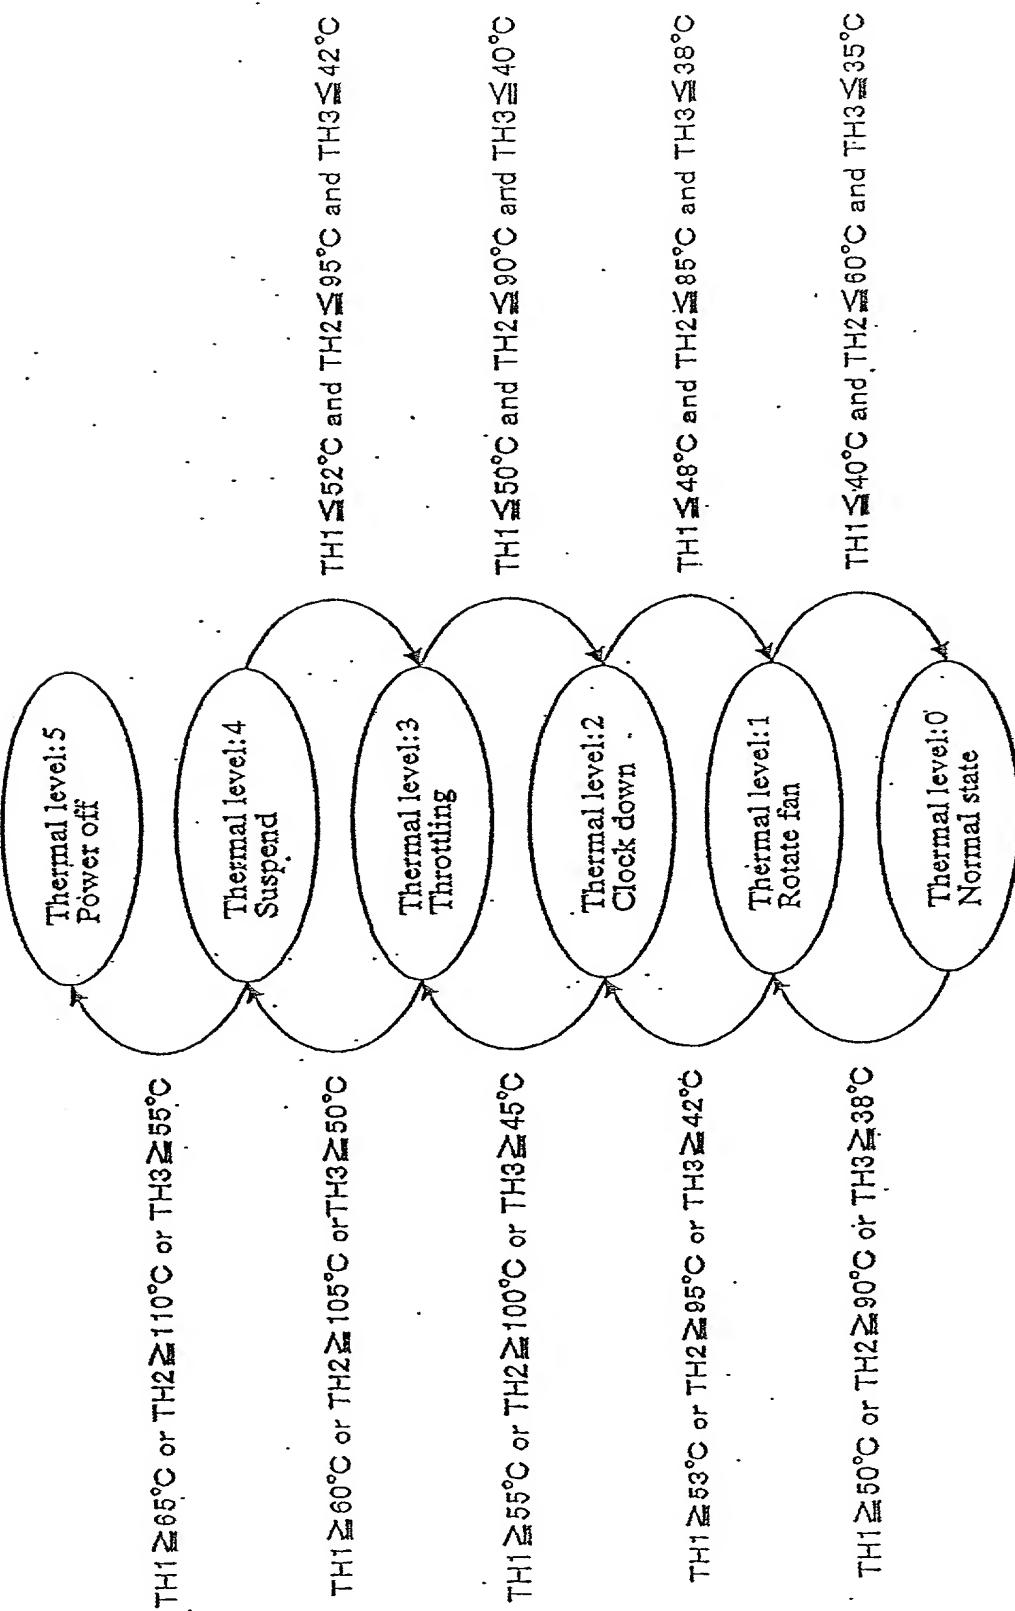

Sheet 5 of 7

Thermal level	5	4	3	
Action	Power off			
Location	enable	disable	Suspend	
TH1	65 degC	N/A	enable 60 degC	disable 52 degC
TH2	110 degC	N/A	enable 105 degC	disable 95 degC
TH3	55 degC	N/A	enable 50 degC	disable 42 degC

Thermal level	5	4	3
Action	Throttling		
Location	enable	disable	enable
2	1	0	0
Action	Normal state		
Location	enable	disable	enable
Clock down	rotate fan	rotate fan	rotate fan
enable	enable	enable	enable
53 degC	48 degC	50 degC	40 degC
95 degC	85 degC	90 degC	60 degC
42 degC	38 degC	38 degC	35 degC
